Dinesh Bajgain (S.N. 3440)

Jagdish Dhami (S.N. 344071)

Sandesh Khadka (S.N.344084)

KIST College of Information Technology

Faculty of Science and Technology

Purbanchal University, Nepal

Feb, 2025

Acknowledgment

We are pleased to present the **"My Portfolio"** as our fourth semester project. This project would have not been possible without some people who really devoted their time to guide us and some tutorial sites found on the internet.

Firstly, we would like to heartily thank our Project Instructor as well as our Project Supervisor Mr. Sudip Bolakhe for his friendly assistance, insightful knowledge, and his endless guidance. We cannot imagine which direction our project would have gone without him. We also thank our college, KIST College of Information Technology, for the support throughout the project period, and our college management for providing everything necessary including lab reference materials, which were very important for this project.

Finally, we are very thankful to acknowledge our respective teachers and friends for their active inspiration and cooperation. We would also thank PURBANCHAL UNIVERSITY for designing such a course structure, where we get to learn and implement new things. It has and will help us to get more knowledge in the field of Information Technology & help us have a successful future in the field of Information Technology.

We hope our University will accept this attempt as a successful project.

Thank you.

Abstract

The Dynamic Web Portfolio is an interactive, responsive web application that highlights finished projects, professional accomplishments, and technological proficiency. The portfolio, which was created with HTML, CSS, JavaScript, SQL, Java, and Spring Boot, shows proficiency with full-stack development. While the backend uses Spring Boot and SQL for reliable functionality and dynamic data management, the interface has a contemporary, user-friendly design. The portfolio also has a direct contact option that makes it easy for users to get in touch with the portfolio owner. This portfolio functions as a professional platform that facilitates direct connection between users and potential employers by enabling them to showcase their accomplishments and talents.
